Title: Endangered Resources Survey

The Wisconsin DNR's Bureau of Endangered Resources is asking for your assistance in completing a survey that will help them better understand the attitudes of Wisconsin citizens regarding the endangered resources program and how it is funded.

The survey will take three to five minutes to complete and will represent an important source of information as the program sets its priorities for the next year. A link to the survey is provided below. This survey is being administered by an independent research firm and all respondents' contact information will be kept strictly confidential. Thank you for your consideration in providing this useful feedback.

If you have any questions about the survey, please contact Irene Schmidt at (608) 267-0281 or e-mail Irene.Schmidt@wi.gov.
